

Product code
D500306NANT (constant voltage)

Info

Dimmer DALI 4 CH/OUT CV

It is the optimal solution to handle a group of lighting devices, in constant voltage mode, through a signal generated by a DALI standard control unit. This enables dimming and/or colour changing, allowing energy saving and generation of pleasant visual effects. This unit has 4 independent units, to control up to 1 RGBW line or 4 monochromatic lines

Features

Supply voltage	Low voltage SELV power supply input, from 11 VDC to 50 VDC, class III
Input power	3 W (device itself)
Output	4 output channel; output voltage is input voltage less internal drop (0,9 V); output current is 5 A
Mounting	DIN rail mount (EN50022)
Protection rating	IP 10
Weight	0,13 kg

Temperature limits

Working temperature	from 0C° to +35C°
Storage temperature	from -50C° to +80C°

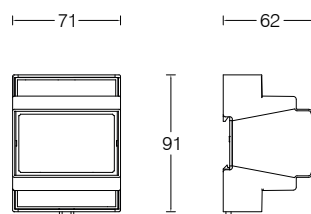

Features

Provides modulation of 4 output channels according to digital control of a DALI bus

Construction

Self extinguishing PC/ABS Blend, compliant with DIN 43880

Dimensions (mm.)
