

Product code  
**PWC08TPX000IP20**

### Info

#### Power connect 8X

It is a terminal block made to ease the series connection of up to 8 groups of RGB or RGBW LED; bypass connectors allow to exclude the unused outputs. For use in combination with Power Manager 1X / 4X equipment.

### Features

Supply voltage	Low voltage current regulated lines, up to 4 channels, maximum 60 VDC
Mounting	DIN rail mount (EN50022) (8 modules)
Protection rating	IP 20
Weight	0,45 kg

### Temperature limits

Working temperature	from -30C° to +50C°
---------------------	---------------------

### Features

Provides an easy way to realize series connection for constant current RGB or RGB+W devices, up to 8 devices.

### Construction

UL94 V-0 self extinguishing polyamide PA 6.6
